Subject: Reg text for WY RH SIP/FIP

Hi Karen

We are working on the Wyoming regional haze FR notice, SIP and FIP, and there's reg text and IBR language I'd like you to review.

The clients have set up the documents in www.max.gov for ease of collaboration and commenting.

If you aren't already, if you can register at www.max.gov and let us know once you have, then Laurel can give you access and we'll let you know when that language is ready for your review.

This action currently has a deadline on 11/21/13, but in light of the shutdown and other factors DOJ just filed a motion for an extension to 1/10/14.

Many thanks!

Sara L. Laumann
